PACKAGING

**With our innovative approach
and processes**

we offer corrugated cardboard box options to our customers with material, cutting and printing options that are suitable for numerous needs of the sector.

ABOUT US

Cyprus Printing Global Packaging Company has been carrying out its activities in 1 production factory and 1 central warehouse in Nicosia Organised Industrial Zone and in 1 warehouse in Alayköy Industrial Zone on a total area of 4 thousand 800 square meters since 2020.

We carry out production with our high-tech machine park in a competitive manner and without compromising on quality with the aim of producing our country's boxes made of parcel and corrugated board through our domestic facilities. With our 4 colour + die-cut printing machine, we have been offering solutions for your 4 colour printed boxes with our 4 colour + die-cut printing machine, which we have been producing since 2021. We prepare your boxes for shipment without human touch thanks to our automatic gluing line.

Our main goals are to provide R&D solutions regarding the vital product and quality standards, to provide assistance to the companies with product demos and designs, to expedite the delivery times of the products and to offer solutions that will reduce the inventory costs of our customers.

The board production line, which we will put into production in 2023 at our newly constructed building with a total production area of 7,500 square metres, will be the most advanced machine on the island in terms of speed and capacity. Our building, which will operate with a recycling system to ensure environmentally friendly production, will also use the energy it will generate with solar panels to carry out production with green energy.

Following the technology closely, our company produces solutions for your product samples or small quantity works with digital demo production machine. We also plan to make innovative investments for digital printing solutions in 2023. We will provide solutions for engraving production, colour demo sample, and small quantity colour works. We have launched a computer-based system for pre-print preparation, pricing and production follow-up this year, thus expediting the quotation and work follow-up processes. R&D studies are being carried out for our robotised production capacity and it is included in our investment planning for 2023.

With our domestic resources, we have the capacity to produce all corrugated board-based boxes and packaging imported to our country from abroad. We have ongoing activities for the international market and we are aiming to make exports next year.

Customer satisfaction, high production quality without compromising on quality, R&D support for product development and competitive prices are the main mission of our company. You can contact our customer representatives for all of our products and your enquiries.

PACKAGING

INNOVATIVE IDEAS FOR PROTECTIVE PACKAGING

Expertise in corrugated transport, order fulfilment and retail packaging.

Our factory, believing in innovation and development, offers special solutions to its customers by understanding them better and working in a customer-oriented perspective with the principle of constant innovation.

Our primary goal is to increase the competitive power of our country with the first and only 4-colour printing machine in Northern Cyprus, to increase domestic production with high quality and wide variety and to increase the competitiveness of our country by investing in machinery with high investment costs that change the price-performance ratio.

With its state of the art modern machinery park, our printing house continues to serve with the largest production area of our country and its wide service network, with its machines with high printing capacity, maximum quality and expert staff.

With our innovative and competitive structure, we offer you a solution partnership with our support based on the quality first and experience afterwards approach.

Standarts

A wide range of internationally recognised packaging standards

Design

Tested and approved standards and designs for successful packaging

Affordable Costs

Short lead times, favourable design and production costs

PACKAGING

CYPRUS PRINTING
GLOBAL

The first **4 Colour**

corrugated cardboard production factory of
Northern Cyprus

Fast, high-tech and
high quality products with
**a production capacity of
3,500 boxes per hour**

Corrugated Cardboard Printing Line

4-Colour Printing Machine

The first 4-colour corrugated cardboard printing machine of Northern Cyprus with a maximum printing capacity of 1600x2600

- 4-colour printing unit
- Rotary shaped cutting unit
- Automatically adjustable slotter cutting unit
- The automatic feeding system is very stable when the machine is running and easier to adjust.
- The automatic picking system ensures that the products are stacked in the lifts.
- A touch screen is available and size input can be done with the screen or buttons depending on the needs of the operator.
- Four rows of rubber wheels for feeding are suitable for large sized cardboards.
- A brush device that can clean the cardboard before printing is available.
- Delta converter and PLC, touch screen
- Schneider contactor/electricity
- Main bearing is NSK branded
- Wall thickness 50mm
- Operation speed 120 sheets/minute

PACKAGING

Automatic Single Point **Box Gluing**

Corrugated Cardboard Gluing Line

Single Point Gluing Machine

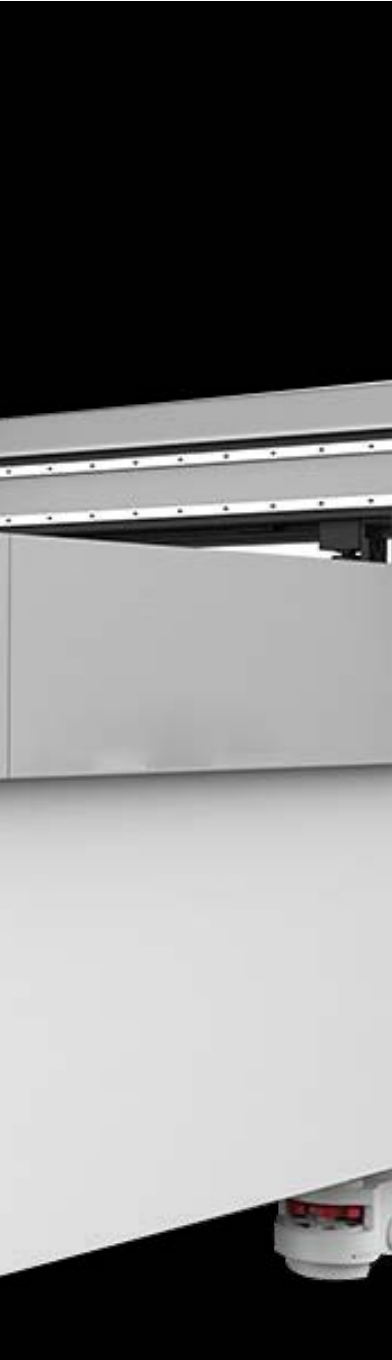

260 cm single point parcel and box gluing machine with maximum gluing capacity

- Gluing up to 260 cm width
- Single point gluing of large waves up to 10mm
- Automatic glue unit washing system
- Gluing capacity up to 250 pieces per minute
- Automatic counting and stacking unit
- Automatic taping unit for stacked and counted products
- Four rows of rubber wheels for feeding are suitable for large sized cardboards.
- PLC, touch screen

PACKAGING

CNC production machine
for sample
products and cardboard boxes

CNC Cutting box production line

Laser cutting machine that can offer fast and efficient solutions

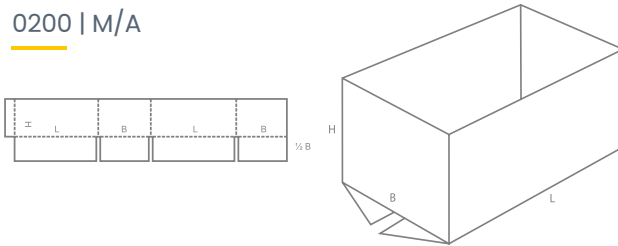

for low capacity production quantities for special cutting and A-Box boxes

- 300x150 cutting area
- Double head
- V cut, pneumatic head, vibrating head
- Cutting depth of up to 10 cm
- Vacuum table
- Camera support for automatic shaped cutting
- Cutting and breaking directly from AutoCAD or pdf document
